

Communications Planning Tool

Step 1: Develop the Message

Guidelines for developing your message:

- The message is clear and consistent.
- The message is a part of all communication that emanates from the group.
- The message reflects the passion of coalition members.
- The message reflects a problem that will engage all members of the community.
- Personal anecdotes are part of the message.

Summarize the group's media message, making sure that it reflects the above guidelines:

Does the message:

- ☐ Command attention?
- ☐ Cater to the heart and the head?
- ☐ Call others to action?
- ☐ Clarify the message?
- ☐ Communicate a benefit?
- ☐ Create trust?
- ☐ Convey a consistent message?

Step 2: Know Your Audience

Consider how your community's media covers the news:

- Is it conservative or aggressive?
- Is it primarily proactive or reactive?
- Is there a group message tailored for both types of news?
- How do they differ?

Step 3: Develop Media Strategies

Where should the message go? Develop a list of media contacts:
